NATURAL SURFACES

OUR NATURAL OIL
**IS THE KEY TO
ETERNAL YOUTH -**
BUT SADLY IT ONLY WORKS ON FURNITURE!

— It's a tree story.

TEAM 7

THE MAIN INGREDIENTS IN TEAM 7 NATURAL OIL

— LINSEED OIL

oil from the seeds of the flax plant

— SUNFLOWER OIL

oil from the seeds of the sunflower

— SOYA OIL

oil from soya beans

— CARNAUBA WAX

hard and resistant palm wax
from the Brazilian fan palm

— BEESWAX

secreted by bees when constructing honeycombs

A TREAT FOR THE SENSES

TEAM 7 NATURAL OIL FOR A SOFT, SILKY SHEEN

TEAM 7 natural oil gives wood a waxy, silky sheen and makes it beautifully smooth to touch.

The soya oil gives the wood a unique depth of colour, and the perfect combination of oils and waxes provides maximum protection for surfaces. The addition of sunflower oil helps prevent discolouration.

TEAM 7 HARDWAX OIL AND TEAM 7 WHITE HARDWAX OIL PERFECT FOR WELL-USED SURFACES

These TEAM 7 natural oils have a high solid content (in particular carnauba wax) and therefore give wooden surfaces a high level of resistance to standing water and grease.

TEAM 7 hardwax oil gives surfaces a waxy, silky sheen and rich colour, and makes them beautifully smooth to touch. This oil is an excellent choice for well-used surfaces such as table tops and kitchen worktops. Since some of the wax remains in the wood pores, surfaces are well protected for day-to-day use.

ADVANTAGES OF TEAM 7 SURFACES

— Scratches and dents are
EASILY FIXED

— WOOD PORES ARE OPEN
and able to breathe

— CREATION OF A HEALTHY ROOM
ENVIRONMENT

— REGULATION OF MOISTURE LEVELS
in the room

— REMOVAL OF ODOURS

— ANTIBACTERIAL PROPERTIES

— ANTISTATIC
and dust-resistant properties

— NO LAYER OF VARNISH
covering the wood
